ABOUT ME

As a passionate web designer and front-end developer, I bring creativity and technical expertise to every project. With a foundation in HTML, CSS, and JavaScript, I've expanded my skills to include React, AngularJS, Bootstrap, jQuery, SQL, MS SQL server, git and PHP. Currently pursuing an ADSE in software engineering at Aptech, I've honed my skills through hands-on experiences and internships, collaborating with teams to create responsive and user-friendly websites.

My commitment to staying updated with industry trends is evident through my active participation in online communities, webinars, and conferences. I thrive on challenges and approach every task with a keen eye for detail. Whether it's building interactive web applications with React or ensuring seamless collaboration with team members, my goal is to bring ideas to life through thoughtful front-end development. With a dedication to continuous learning and a passion for innovative solutions, I am poised to make a valuable impact in the ever-evolving landscape of web design and development.
